Above charges based on metered water usage.

* Fixed charges are progressive based on the size of the property's service and corresponding meter. Your meter size is shown under the Meter Type column within the Your Usage *For This Period* section located at the bottom of your bill.

How do we compare to other municipalities?

The following chart provides 2019 fixed charges restated on monthly basis for comparison purposes with other Ontario municipalities - note that Hamilton's variable rates are lower than the comparators below.

The combined 4.11% rate increase will be used to support:

Investment in treatment plants, distribution / collection systems & stormwater management.

4.0%

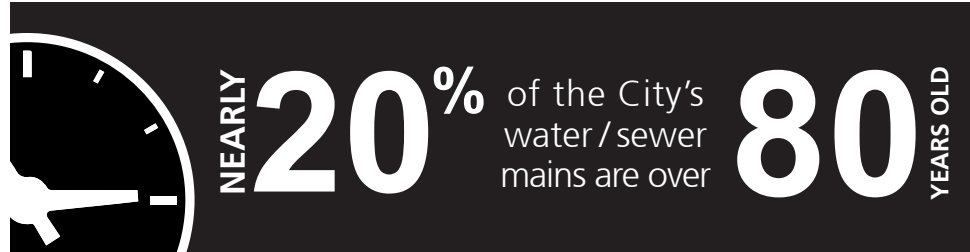

Operating and maintenance costs to keep our drinking water safe.

0.11%

Why do rates keep increasing?

The cost to distribute, collect and treat municipal water and wastewater throughout the City remains relatively constant, regardless of the volume actually consumed by all residents. The largest portion of your bill is used for capital renewal and expansion of the City's overall water/wastewater/storm infrastructure. Aging City infrastructure becomes more costly to operate, maintain and replace.
