Energy Saving Tips

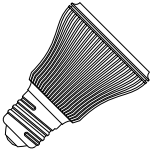

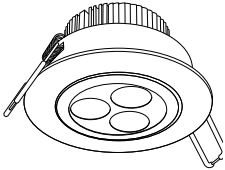

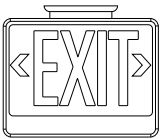

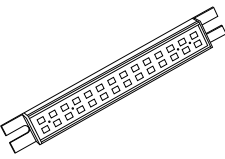

- Dirt and dust accumulation can reduce light output by 30%.
- Reduce lighting energy use by 25% by installing occupancy sensors.
- Save energy and replacement costs with LED exit signs which last up to 100,000 hours.
- LEDs contain no mercury and are more durable than traditional lighting, making them an environmentally friendly choice.

Customer Testimonial

“By upgrading to LED lights, we’ve been able to double our selling space without increasing our hydro costs. Plus, for a large organization like Shoppers, having a single point of contact at our local electric utility, and easy-to-use saveenergy incentives, made for a seamless application process.”

-Tammie Smitham
Vice President, Communications & Corporate Affairs
Shoppers Drug Mart

Available Incentives

	LED LIGHT TYPE	LIGHTING REQUIREMENTS	AVAILABLE INCENTIVES
 <p>LED Lighting Consume 75% less energy than incandescent bulbs and come in a variety of shapes, colours, and sizes</p>	LED MR16 lamp	Up to 6 Watt 7 to 10 Watt	\$6 / lamp \$11 / lamp
	LED PAR lamp	Up to 16 Watt 16 to 25 Watt	\$14 / lamp \$20 / lamp
 <p>LED Recessed Downlighting Consume up to 70% less energy compared to incandescent bulbs and provide directional lighting</p>	LED Downlight	350 to 600 lumens	\$19 / downlight
		600 to 800 lumens	\$23 / downlight
		800 lumens or greater	\$29 / downlight
